

Fellowships & Dedicated Resources Round VII Call for Proposals

SHARCNET has issued a call for proposals for Round VII of SHARCNET's Research Support Programmes: Fellowships & Dedicated Resources.

- The Fellowships Programme provides financial support for postdoctoral, graduate, and undergraduate students as well as for visiting scientists. Dedicated Resources allows a researcher to apply for dedicated CPU time and/or storage. The Round VII guidelines are available at:
http://www.sharcnet.ca/Documents/SN_application_guidelines.pdf .
- Starting with this round, applicants may register an “intent to apply for an award” at <https://www.sharcnet.ca/my/profile/intent/>, via the SHARCNET webportal. This will add your name to a temporary mailing list; this list will be the only way in which communications (including corrections and updates) will be made about the resource allocation round after the initial email to general@sharcnet.ca . Note that completing the "intent to register" is not a requirement for submitting a Round VII application.
- A separate Research Support Programmes FAQs has been created to address common questions from previous rounds. This is available online along with the application form.

The web-based application form for Round VII is available on the SHARCNET website at: https://www.sharcnet.ca/Portal/resource_application/ . You will notice that enhancements have been made to the online application process, based on feedback provided by researchers from the previous round.

****Note that users must have a SHARCNET webportal account in order to access the application form.****

The deadline for Round VII is September 30, 2007

If there are any questions or clarification required, please do not hesitate to contact SHARCNET at research-support@sharcnet.ca .
