

Small Dedicated Resources Call for Proposals

SHARCNET has issued a call for proposals for SHARCNET's newest Research Support Programme: Small Dedicated Resources.

The Dedicated Resources Programme has been revised and now encompasses two streams with different deadlines and thresholds. The "Small DR" stream is new and will be run as a pilot to assess its utility. The previous Dedicated Resources Programme will now be referred to as "Large DR". Dedicated Resources allows a researcher to apply for dedicated CPU time and/or storage. The guidelines are available at: http://www.sharcnet.ca/Documents/SN_SP_DR.pdf

Applications for dedicated resources are open to all faculty (PI) applicants with a valid SHARCNET account.

The web-based application form for Small DR is available on the SHARCNET website at: https://www.sharcnet.ca/my/resource_applications

****Note that users must have a SHARCNET webportal account in order to access the application form.****

The deadline for Small DR is December 15, 2009

To assist researchers in understanding the guidelines and the application process, we have established an information session as follows:

December 2, 2009 3:00-4:00 pm

This session will be held over SHARCNET's AccessGrid. Details will also be posted on the SHARCNET "Events" website, <https://www.sharcnet.ca/my/news/calendar>. We can also connect a few users by phone, for any remote researchers who are interested in participating. Such users should contact SHARCNET (519-661-4000 or barb@sharcnet.ca) so that we can make arrangements for a phone-in connection.

Potential applicants are strongly encouraged to review the guidelines as some requirements must be initiated prior to the information session on December 2nd.

If there are any questions or clarification required, please do not hesitate to contact SHARCNET at research-support@sharcnet.ca.
